

Grassi's Automotive industry professionals know what it takes to keep your business running and performing at its best. Our business advisory, tax planning and compliance solutions help you identify missed opportunities, improve operational and financial performance, and capitalize on strategies that move your business forward.

With expert knowledge of the technology, data and best practices that drive success in the Automotive industry, our advisors provide guidance and knowledge long after your audit and tax returns are complete. Our Automotive specialists have extensive experience advising major auto dealers, car wash operators, quick lubes, oil distribution companies, gas stations, convenience stores, limousine companies and the many manufacturers and suppliers who serve the industry.

Our experience with family owned businesses, private equity portfolios and publicly traded companies provides us with the perspective and insights needed to help you navigate the structuring, growth and eventual transition of your business.

Our services include:

- Audit & Attest Services
- Tax Planning & Compliance
- Technology Consulting
- Software Selection & Implementation
- Mergers & Acquisitions
- Valuations and Quality of Earnings Reports
- Cash Flow Models & Projections
- Operational Reviews
- CFO Advisory Services
- HR Consulting & Workforce Management
- Succession Planning
