

At Grassi, we take the financial worry out of healthcare providers' daily lives and let them focus on patient care. Our risk management services help practices develop creative solutions to the most pressing management, financial, regulatory and compliance issues, and we assist physicians in designing and implementing strategies to improve the quality of their service and the overall financial health of their practices.

Our integrated team of compliance specialists, financial experts, certified public accountants, clinicians and licensed health professionals provides the research, guidance and framework necessary to streamline and grow healthcare practices as well as optimize their profitability. Grassi serves the east coast as well as clients across the country. Our healthcare accounting team provides practices with the following:

- Accounting
- Tax
- Business Advisory
- Valuations
- Bookkeeping Services

## Grassi Healthcare Advisors

Our affiliate, Grassi Healthcare Advisors, LLC, is an experienced team of healthcare consultants, clinicians and compliance specialists who help providers and facilities meet their revenue integrity, performance and growth goals through strategies that improve profitability and ensure sustainability.
