

Registered with the Public Company Accounting Oversight Board (PCAOB), Grassi has the resources and expertise to deliver high-quality audit services to public companies with more personal service and reasonable rates than larger accounting firms.

Our Public Company advisors have years of experience auditing publicly held companies and SPACs at top international accounting firms and helping them comply with the strict standards and scrutiny of the PCAOB. These capabilities are enhanced by Grassi's commitment to technology advancements that bring you a more seamless audit experience and highly accurate results.

The services we provide to public companies include:

- Audit and Assurance
- SPAC audits and advisory services
- SEC compliance and reporting
- Employee benefit plan audits
- Tax planning and compliance
- M&A due diligence and transaction support
- Forensic accounting and fraud prevention
- Business valuations

Our audit professionals have served public companies in a wide range of market sectors and can provide post-audit recommendations specific to your industry, including financial services, construction, real estate, manufacturing and distribution, healthcare, technology and more.

Grassi's business consultants and tax specialists advise public companies and SPACs at every stage, from IPO to international expansion. As a member of the Moore Global network, our international team expands to 30,000 professionals in 110 countries who can lend their local expertise to help your public company succeed around the globe.
